

# Systematic Scale-up of Sustainable Training Systems in Uttar Pradesh

A Skilled Birth Attendant (SBA) is an accredited health professional such as midwife/doctor/nurse who has been educated & trained to achieve proficiency in the skills to manage:

## GoUP Vision 2023

With the Government of Uttar Pradesh (GoUP)'s commitment to reduce MMR and NMR in the state and achieving the SDG targets, there was an intent to train all government health providers conducting deliveries from Sub Center to District Women's Hospital (DWH) level in SBA by the end of 2023.

## Technical Support by Uttar Pradesh Technical Support Unit

**"CLUSTER BASED" SBA TRAINING MODEL**

Trainees in batches of multiples of 4 (8,12 or 16) are brought centrally to the DWH for 5 days theoretical training following which they are sent in batches of 4 to CHC training sites within the district for 16 days practical training.

**REVIEW & REVISION OF TRAINING MATERIAL**

Review of the entire content - presentations, videos, 5 days theoretical agenda, OSCE checklists, Mini skill lab guidelines

**The district level trainings were rolled out in November 2022 following a detailed microplanning from State. Master Trainers took forward the training to District level.**

## Progress

**1217**

Master Trainers (doctors and nurses) trained

**75**

Districts across UP

**4**

State Skills Labs

**265**

SBA training sites (DHs and CHCs)

**4+**

Master trainers at each site

**745 Batches**

**SBA trained**

Nov 2022 - Mar 2023

**2966**

Nurses and ANMs

**45**

AYUSH LMOs
